Calling Track Sponsors!

Do you have a challenge that you wish to see solved?
Want to leverage a community of the brightest minds across business functions and industries?
Come together and find a hack for your business and the future of animal farming

Track Sponsorship starts at
\$30,000 per track

Last date for track sponsor registration:
EuroTier China & EuroTier 2020: May 15th 2020
EuroTier Abu Dhabi: August 2020

Why Now?

- Food security, animal health and transparency in the food supply chain, and sustainability are among the big challenges that lie ahead for the farming industry.
- Big problems need new and creative solutions that look to the future bringing technology and innovation to the forefront.
- The EuroTier Hackathon is a platform for the animal farming industry to collaborate with the business and education community at large to identify challenges and come up with solutions for the same.

Why Attend?

- Be in the spotlight of agricultural innovation.
- Be part of the platform that will transform solution concepts to market ready ideas.
- Network with the globe's brightest and best technological minds.
- Engage with the agriculture community in three regions: East Asia, Middle East and Central Europe
- Promote collaboration.
- Build brand recognition and awareness with the global livestock sector.
- Align your organisation with China, Germany and UAE centres of innovation.

How It Works?

Challenge:

A track is a challenge or a problem statement developed by a company or organisation.

The Teams:

A group of individuals who work together on a new innovative solution to the/ challenge or problem put forth by the track sponsor.

Community:

Invite individual contributors to attend the EuroTier Hackathon.

Panel of Judges:

The track sponsor, nominates a panel of judges and subject matter experts who award a track winner.

Who Attends?
